

# How To Make Boots From Dollar Tree Plastic Booties

## You Will Need:

- Dollar Tree Party Favor Plastic Shoes
- 2 pieces of felt 2"x 6"
- 2 pieces felt large enough for sole of shoe
- Small amount of rice
- Embellishments, Ribbon, twine etc

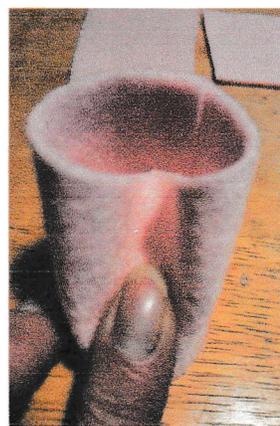

1. Before starting make sure the color of the shoe is not showing through your material. (i.e. If using white felt you may want to paint the shoes white first.) Starting in the back of the shoe wrap and glue the 2"x 6" piece of felt around the perimeter of the shoe. Make sure the felt is even with the bottom edge of the shoe (the sole)

2. Cut off the excess so it overlaps just a little

3. Seam should be in the back of the boot

4. Place some glue on the toe of the plastic shoe inside. With 1 finger push the felt into the glue.

5. It should look like this when you let go

6. Place some glue in the upper part of the fold you've just created and pinch together

7. You may need to hold it for a few seconds so it is secure. But it should look like this.

8. Fill the bottom of the shoe with rice. This will provide weight, especially if you are doing standing gnomes or the shelf sitters with the dangling legs. **DO NOT OVER FILL !!!** You are going to run a line of glue around the whole bottom of the shoe to glue on the sole, you want to make sure that none of the rice is in the way or the sole won't be secure.

9. Run glue all the way around the outside of the bottom of the shoe (where the felt and plastic come together) Make sure there are no pieces of rice in the way. Press the sole fabric on top. (Don't try to flip the shoe onto the fabric on the table, that makes a mess ! Not that I would know this personally :D )

10. Flip it over onto a table and push to secure

11. When the glue has set trim the excess off

Add embellishments. Could be a simple ribbon or twine  
Pearls are fun. or add Fur. You could also use a different color of material for the sole. The possibilities are endless.
